Please quote / tell us:

- Can you supply or custom-melt 22K **rose-gold** blanks (91.67% Au, balance Cu/Ag)? If not, would you substitute 22K yellow, and what is the price difference?
- Can you apply **hard enamel** color on a 27 mm gold round at this detail level? Cost, color matching and minimums.
- Minimum order, **die and sculpting fees** (obverse and reverse), strike fee per coin, proof vs. BU finish, assay / fineness certificate, weight tolerance, lead time, insured shipping to Florida.
- Quantities to price: 1 prototype (if possible), 25 coins, 100 coins. Metal: we can buy gold from you or supply it; please quote both.
